NEW

Micro interruptores de segurança, para evitar o funcionamento do painel de controlo quando retirado da cuba

Termostato trifásico de segurança com rearme manual

Pés de borracha anti deslizantes

Cabeça desmontável para facilitar a limpeza da cuba

Termostato trifásico regulável até 190°C

Construção em aço inox

Comutador trifásico ON/OFF de corte de corrente geral com luz indicadora

Resistência em aço inox

Saída de óleo no fundo da cuba, para escoamento eficiente equipado com filtro anti-resíduos

Torneira 3/4" com sistema de segurança

Cuba interior embutida de inox com marca de nível de óleo, máx. e mín

- * Stainless steel construction;
- * Stainless steel heating element;
- * Detachable control panel to facilitate the cleaning of the tank;
- * Three-phase thermostat adjustable up to 190°C;
- * Three-phase safety thermostat with manual reset;
- * Three-phase ON / OFF switch for general power cut-off with indicator light;
- * Built-in stainless steel vat with oil level mark, max/min.;
- * Anti-slip rubber feet;
- * Safety micro switches, to prevent the operation of the control panel when removed from the tank;
- * 3/4 " faucet with security system;
- * Oil outlet at the bottom of the tank, for efficient drainage equipped with an anti-waste filter.

- * Construcción de acero inoxidable;
- * Resistencia del acero inoxidable;
- * Cabezal desmontable para facilitar la limpieza del tanque;
- * Termostato trifásico regulable hasta 190°C;
- * Termostato de seguridad trifásico con reset manual;
- * Interruptor de encendido / apagado trifásico para corte de energía general con luz indicadora;
- * Cuba empotrada de acero inoxidable con marca de nivel de aceite, máx. y min.;
- * Pies de goma antideslizantes;
- * Microinterruptores de seguridad, para evitar el funcionamiento del panel de control cuando se retira del tanque;
- * Grifo de 3/4 " con sistema de seguridad;
- * Salida de aceite en el fondo del tanque, para un drenaje eficiente equipado con un filtro anti-desperdicio.

- * Construction en acier inoxydable;
- * Résistance en acier inoxydable;
- * Tête amovible pour faciliter le nettoyage du réservoir;
- * Thermostat triphasé réglable jusqu'à 190°C;
- * Thermostat de sécurité triphasé à réarmement manuel;
- * Interrupteur marche/arrêt triphasé pour coupure de courant générale avec voyant lumineux;
- * Cuve intégrée en acier inoxydable avec repère de niveau d'huile, max. et min.;
- * Pieds en caoutchouc antidérapants;
- * Micro-interrupteurs de sécurité, pour empêcher le fonctionnement du panneau de commande lorsqu'il est retiré du réservoir;
- * Robinet 3/4 " avec système de sécurité;
- * Sortie d'huile au fond du réservoir, pour un drainage efficace équipé d'un filtre anti-gaspillage.

Aquecedor de Fritos

THERMAL BRIDGES · CALENTADORES · CHAUFFE ALIMENTS

* Stainless steel construction
* Equipped with 1/1 GN bowl

- * Heating elements located at the top
- * Perforated drain pan;
- * Anti-slip feet;
- * Individual ON/OFF switch for each resistance;
- * Resistance distance 320mm.

* Construcción de acero inoxidable
* Equipado con cuba GN 1/1
* Elementos calefactores ubicados en la parte superior
* Bandeja de drenaje perforada;
* Pies antideslizantes;
* Interruptor de ON/OFF individual para cada resistencia;
* Distancia de resistencia 320 mm.

* Construction en acier inoxydable
* Equipé d'un bac 1/1 GN
* Éléments chauffants situés en haut
* Plaque perforé amovible;
* Pieds antidérapants;
* Interrupteur marche/arrêt individuel pour chaque résistance;
* Distance de résistance 320 mm.

Forno de Cinta

CONVEYOR-BELT OVEN · HORNS DE CINTA · FOUS À CONVOYEUR

- * Stainless steel structure;
- * Conveyor belt speed regulation;
- * Up and bottom independent heating power regulation;
- * Analogic thermometer;
- * Rotary switch ON/OFF;
- * Adjustable feet.

- * Estructura de acero inoxidable;
- * Regulación de velocidad de la cinta;
- * Regulación de potencia superior y inferior independiente;
- * Termómetro analógico;
- * Interruptor giratorio ON/OFF;
- * Pies ajustables.

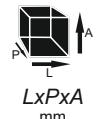

- * Structure en acier inoxydable;
- * Commandes de puissance supérieur et inférieur indépendants;
- * Régulation de vitesse;
- * Tapis en acier inoxydable;
- * Thermomètre analogique;
- * Comutateur rotatif marche/arrêt;
- * Pieds réglables.

Forno de Pizza

PIZZA OVENS · HORNOS DE PIZZA · FOUPS À PIZZA

Modelos disponíveis com porta de vidro (PV) ou com porta de inox (PI)

Ideal para pizzas frescas e congeladas

Models available with glass door (PV) or stainless-steel door (PI)

- * Internal light (only on models with glass doors);
- * Independent thermostats for regulating the lower and upper resistance in each camera;
- * Lower resistance in refractory plates;
- * Superior resistance in stainless steel;
- * Switch ON/OFF per each chamber;
- * Maximum temperature per camera: 300°C;

Modelos disponibles con puerta de cristal (PV) o puerta de acero inoxidable (PI)

- * Luz interna (solo en modelos con puertas de vidrio);
- * Termostatos independientes para regular la resistencia superior e inferior en cada cámara;
- * Resistencia inferior en placas refractarias;
- * Resistencia superior en acier inoxydable;
- * Interruptor ON/FF para cada cámara;
- * Temperatura máxima por cámara: 300°C;

Modèles disponibles avec porte en verre (PV) ou porte en acier inoxydable (PI)

- * Éclairage intérieur (uniquement sur les modèles avec portes en verre),
- * Thermostats indépendants pour régler la résistance inférieure et supérieure de chaque chambre ;
- * résistance inférieure dans les plaques réfractaires ;
- * Résistance supérieure en acier inoxydable ;
- * Interrupteur ON / OFF pour chaque chambre ;
- * Température maximale par caméra : 300°C ;

ANTIADERENTE

NON-STICK

ANTIADHERENTE

ANTIADHÉSIF

Projetado para operar com Butano (G30) / Propano (G31) e Gás Natural (G20), com injetores para modificação de acordo com as normas

Equipamentos construídos e certificados com marca CE

Smooth and grooved gas grilling plate with ceramic coating non-stick;

- * Completely constructed in stainless steel;
- * Brushed / Scotch finish;
- * Independent heating zones (nr of zones are depending on the model);
- * Self-stabilized flame burner, controlled by a thermocouple safety valve;
- * Burner with pilot flame and lighter;
- * Hole in the front panel for manual ignition, in the event of a lighter failure;
- * Side edges for protection against splashes;
- * Removable drawer for collecting fat;
- * Designed to operate on Butane (G30) / Propane (G31) and Natural Gas (G20), with injectors for modification according to standards;
- * Rear gas inlet, for space optimization
- * Adjustable feet.
- * Equipment's built and certified with CE mark.

Parrilla de gas lisa y ranurada con revestimiento cerámico antiadherente;

- * Totalmente construido en acero inoxidable;
- * Acabado cepillado / scotch;
- * Zonas de calefacción independientes (el número de zonas depende del modelo);
- * Quemador de llama autoestabilizado, controlado por válvula de seguridad termopar;
- * Quemador con llama piloto y mechero;
- * Agujero en el panel frontal para encendido manual, en caso de falla del encendedor;
- * Bordes laterales para protección contra salpicaduras;
- * Cajón extraíble para recoger grasa;
- * Diseñado para operar con Butano (G30) / Propano (G31) y Gas Natural (G20), con inyectores para modificación según normas;
- * Entrada de gas trasera, para optimizar el espacio.
- * Pies ajustables.
- * Equipo construido y certificado con marca CE.

Plaque de cuisson au gaz lisse et rainuré avec revêtement céramique antiadhésif;

- * Entièrement construit en acier inoxydable ;
- * Finition Brossé/Scotch;
- * Zones de chauffage indépendantes (le nombre de zones dépend du modèle);
- * Brûleur à flamme auto-stabilisée, contrôlé par soupape de sécurité à thermocouple ;
- * Brûleur avec flamme pilote et briquet ;
- * Trou dans le panneau avant pour l'allumage manuel, en cas de panne du briquet ;
- * Bordures latérales pour la protection contre les éclaboussures ;
- * Tiroir amovible pour collecter la graisse ;
- * Conçu pour fonctionner au Butane (G30) / Propane (G31) et au Gaz Naturel (G20), avec injecteurs pour modification selon les normes ;
- * Entrée de gaz arrière, pour une optimisation de l'espace
- * Pieds réglables ;
- * Équipements construits et certifiés avec la marque CE.

Placas de Grelhar a Gás Lisas e semi-ranhuradas

SMOOTH AND SEMI-GROOVED GAS GRILL PLATES · PLANCHAS DE GRILL GAS LISAS Y SEMI-RANURADAS

PLAQUE DE CUISSON GAZ LISSE ET SEMI-RAINURÉE

ANTIADERENTE

NON-STICK

ANTIADHERENTE

ANTIADHÉSIF

Queimador de chama autoestabilizado, controlado por válvula de segurança termopar

Bordas laterais para proteção contra salpicos

Placa para grelhar a gás lisa e ranhurada com revestimento cerâmico antiaderente

Entrada de gás traseira, para otimização de espaço

Gaveta removível para coleta de gordura

Pés ajustáveis

Totalmente construído em aço inoxidável

Orifício no painel frontal para ignição manual, em caso de falha do isqueiro

Queimador com chama piloto e isqueiro

Projetado para operar com Butano (G30) / Propano (G31) e Gás Natural (G20), com injetores para modificação de acordo com as normas

Equipamentos construídos e certificados com marca CE

Smooth and grooved gas grilling plate with ceramic coating non-stick;

* Completely constructed in stainless steel;

* Brushed / Scotch finish;

* Independent heating zones (nr of zones are depending on the model);

* Self-stabilized flame burner, controlled by a thermocouple safety valve;

* Burner with pilot flame and lighter;

* Hole in the front panel for manual ignition, in the event of a lighter failure;

* Side edges for protection against splashes;

* Removable drawer for collecting fat;

* Designed to operate on Butane (G30) / Propane (G31) and Natural Gas (G20), with injectors for modification according to standards;

* Rear gas inlet, for space optimization

* Adjustable feet.

* Equipment's built and certified with CE mark.

Parrilla de gas lisa y ranurada con revestimiento cerámico antiadherente;

* Totalmente construido en acero inoxidable;

* Acabado cepillado / scotch;

* Zonas de calefacción independientes (el número de zonas depende del modelo);

* Quemador de llama autoestabilizado, controlado por válvula de seguridad termopar;

* Quemador con llama piloto y mechero;

* Agujero en el panel frontal para encendido manual, en caso de falla del encendedor;

* Bordes laterales para protección contra salpicaduras;

* Cajón extraíble para recoger grasa;

* Diseñado para operar con Butano (G30) / Propane (G31) y Gas Natural (G20), con inyectores para modificación según normas;

* Entrada de gas trasera, para optimizar el espacio.

* Pies ajustables.

* Equipo construido y certificado con marca CE.

Plaque de cuisson au gaz lisse et rainuré avec revêtement céramique antiadhésif;

* Entièrement construit en acier inoxydable ;

* Finition Brossé/Scotch;

* Zones de chauffage indépendantes (le nombre de zones dépend du modèle);

* Brûleur à flamme auto-stabilisée, contrôlé par soupape de sécurité à thermocouple ;

* Brûleur avec flamme pilote et briquet ;

* Trou dans le panneau avant pour l'allumage manuel, en cas de panne du briquet ;

* Bordures latérales pour la protection contre les éclaboussures ;

* Tiroir amovible pour collecter la graisse ;

* Conçu pour fonctionner au Butane (G30) / Propane (G31) et au Gaz Naturel (G20), avec injecteurs pour modification selon les normes ;

* Entrée de gaz arrière, pour une optimisation de l'espace

* Pieds réglables ;

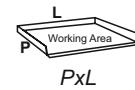

* Équipements construits et certifiés avec la marque CE.

Grelhador a gás

GAS BARBECUES · BARBACOAS A GAS · BARBECUE À GAZ

NEW

Queimador cilíndrico de chama autoestabilizado, controlado por válvula de segurança termopar

Estrutura em aço inox

Pés anti deslizantes

Projetado para operar com Butano (G30) / Propano (G31) e Gás Natural (G20), com injetores para modificação de acordo com as normas
Equipamentos construídos e certificados com marca CE

* Self-stabilizing cylindrical flame burner, controlled by thermocouple safety valve;

* Totally built in stainless steel;

* Ribbed grid in stainless steel;

* 3-height adjustable grid with bakelite handles;

* Hole in the front panel for manual ignition;

* Independent heating zones (the number of zones depends on the model)

* Removable drawer for fat collection;

* Designed to operate with Butane (G30) / Propane (G31) and Natural Gas (G20), with injectors for modification according to the standards;

* Adjustable feet;

* Equipment built and certified with CE mark.

* Quemador de llama cilíndrica autoestabilizante, controlado por válvula de seguridad termopar;

* Totalmente construido en acero inoxidable;

* Rejilla acanalada en acero inoxidable;

* Rejilla regulable en 3 alturas con asas de baquelita;

* Agujero en el panel frontal para encendido manual;

* Zonas de calefacción independientes (el número de zonas depende del modelo)

* Cajón extraíble para recolección de grasa;

* Diseñado para operar con Butano (G30) / Propano (G31) y Gas Natural (G20), con inyectores para modificación según normas;

* Pies ajustables;

* Equipo construido y certificado con marca CE.

* Brûleur à flamme cylindrique auto-stabilisant, contrôlé par une soupape de sécurité à thermocouple;

* Totalement construit en acier inoxydable;

* Grille nervurée en acier inoxydable;

* Grille réglable sur 3 hauteurs avec poignées en bakélite;

* Trou dans le panneau avant pour l'allumage manuel;

* Zones de chauffage indépendantes (le nombre de zones dépend du modèle)

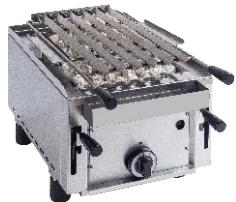

* Tiroir amovible pour la collecte des graisses;

* Conçu pour fonctionner avec du Butane (G30) / Propane (G31) et du Gaz Naturel (G20), avec des injecteurs pour modification selon les normes;

* Pieds réglables;

* Équipement construit et certifié avec la marque CE.

Crepeira Elétrica Simples & Dupla

SINGLE & DOUBLE ELECTRIC CREPE MAKER · CREPERA ELÉCTRICA SIMPLES & DOBLE · CRÊPIÈRE ÉLECTRIQUE SIMPLE & DOUBLE

Rápida preparação de panquecas e crepes

* Single and double model;

* Stainless steel body;

* Enamelled cast iron plate (non-stick ceramic coating);

* Spiral-mounted incoloy armored resistance for even cooking;

* Switch On/Off and indicator light as "ON" indicator;

* Thermostat adjustable (up to 300 ° C) and indicator light to show that is in the working mode;

* Cooking surface (mm): plate Ø 400;

* 2 Power cords (Double Mod.)

* Modelos simples y dobles;

* Cuerpo de acero inoxidable;

* Placa de hierro fundido esmaltado (revestimiento cerámico antiadherente);

* Resistencia blindada incoloy montada en espiral para cocinar uniformemente;

* Interruptor de ENCENDIDO / APAGADO y luz piloto como indicación de modo "encendido";

* Termostato regulable (hasta 300 ° C) y piloto luminoso que indica su funcionamiento;

* Superficie de cocción (mm): placa Ø 400;

* 2 cables de alimentación (mod doble).

Modèle simple et double ;

Carrosserie en acier inoxydable ;

Plaque en fonte émaillée (revêtement en céramique antiadhésif) ;

Résistances blindées incoloy montées en spirale pour une cuisson homogène ;

Interrupteur marche/arrêt pour contrôler l'alimentation principale et voyant lumineux pour indication de marche ;

Thermostat de régulation (jusqu'à 300 °C) et voyant lumineux pour montrer le fonctionnement du thermostat ;

Surface Cuisson (mm) : plaque Ø 400 ;

2 Cordons d'alimentation (Mod. Double)

· A realização de qualquer encomenda implica a aceitação das presentes Condições Gerais de Venda, acrescidas pelas condições contratuais mencionadas nas Guias de Transporte e faturas.

· Reserva-se o direito de não aceitar encomendas de clientes com pagamentos em atraso.

· Os preços aplicados são os da tabela em vigor na data em que é efetuada a encomenda, salvo erro tipográfico, de acordo com as condições comerciais e de pagamento previamente acordadas.

· Não são aceites devoluções sem autorização prévia.

· Não nos poderá ser exigida qualquer responsabilidade por danos causados pelo uso indevido ou não cumprimento da legislação em vigor.

· As partes, com renúncia expressa a qualquer outro, submetem qualquer litígio emergente ao Foro da Comarca de Gondomar.

· Sob os valores apresentados é aplicada a taxa IVA em vigor.

· Os prazos de entrega, quando indicados, são sempre estimados, não podendo a sua prorrogação constituir fundamento para a anulação da encomenda ou pedido de indemnização.

· As presentes Condições Gerais de Venda são válidas á saída do nosso armazém, sendo que as mesmas viajam por conta e risco do comprador.

· Qualquer anomalia resultante do transporte por nossa conta deve de ser identificada e registada pelo Cliente, na presença do transportador, durante a entrega da mercadoria.

· De acordo com as Condições Gerais de Venda dos fabricantes, os artigos vendidos têm garantia de um ano a contar da data da nossa Fatura/Venda a dinheiro.

· Considera-se excluído da garantia qualquer equipamento ou peça que:

* Tenha uma utilização diferente da preconizada pelo fabricante;

* Tenha sido incorretamente manuseado ou aplicado;

* Cuja anomalia derive do desgaste normal resultante da utilização das peças e/ou acessórios.

· A garantia não cobre prejuízos ou lucros cessantes como consequência indireta de eventuais defeitos.

- Reservamos os direito de impressão, assim como alterar as especificações e características técnicas dos produtos ou a gama, sem aviso prévio.

- Em caso de entrega expresso solicitada pelo cliente, o custo será suportado por este. As embalagens não terão qualquer valor de retoma

Condições de entrega:

A XDome compromete-se a entregar os produtos no local indicado pelo cliente, desde que este se situe ao nível do solo. No caso de esse local não respeitar as condições, e a pedido do comprador, a XDome apresentará a melhor solução, sendo os custos adicionais daí recorrentes debitados ao comprador.

O comprador obriga-se especificamente a:

* Contar os volumes e comprovar se esse número coincide com o numero indicado na guia de transporte, assim como verificar se as referencias estão corretas e se não existe nenhum erro.

* Comprovar o bom estado de todos os volumes. No caso de se verificarem problemas de transporte, como dados a conhecer á XDome, por escrito, no prazo de 72 horas após as quais não serão aceites devoluções para trocas de material.

Especificações técnicas:

As especificações técnicas dos produtos são as mencionadas no catálogo, salvo erro de tradução de texto ou fotografia. Sempre que a XDome não possa enviar os produtos encomendados, em virtude de limitações de stock ou modificação das especificações técnicas, compromete-se a informar o autor da encomenda de tal impossibilidade, podendo apresentar produtos alternativos, isto é, com as mesmas características essenciais.

Garantias:

Todos os equipamentos comercializados em catálogo têm 12 meses de garantia.

A responsabilidade da XDome em matéria de garantia fica limitada á reparação ou á substituição pura e simples, das peças que tenhamos reconhecido como defeituosas.

Lei aplicável e Jurisdição Competente:

Os contratos de compra e venda celebrados entre a XDome e os compradores regem-se pela lei Portuguesa. Para a resolução de qualquer tipo de litígio emergente da interpretação e execução dos contratos de compra e venda celebrados entre XDome e os compradores, incluindo os que digam respeito á garantia das mercadorias ou que envolvam uma pluralidade de intervenientes, são competentes os tribunais da Comarca de Gondomar.

- The execution of any order implies acceptance of these General Conditions of Sale, added by the contractual conditions mentioned in the transportation documents and invoices.
- It is reserved the right to not accept orders from customers with delayed payments.
- The prices applied are those of the updated table on the date the order is placed, except for a typographical error, according to the agreed commercial and payment conditions.
- We do not accept returns without prior authorization.
- We can not be held responsible for damages caused by misuse or non-compliance with the legislation.
- The parties, with clear resignation to any other, submit any emerging litigation to the courts of the "Comarca de Gondomar".
- Under the presented values the current VAT rate is applied.
- The delivery times, when indicated, are always estimated, and their extension can not be grounds for cancelling the order or request for compensation.
 - These General Conditions of Sale are valid from our warehouse, and the transportation it is at the buyer's risk.
- Any anomaly resulting from transportation on our behalf must be identified and registered by the Customer, in the presence of the carrier, during the delivery of the goods.
- According to the General Conditions of Sale of the manufacturers, the items sold have a guarantee of one year from the date of our Invoice.

It is considered excluded from the warranty any equipment or part that:

- * Had a different use from those recommended by the manufacturer.
- * Has been improperly handled or applied;
- * An anomaly resulting from normal wear resulting from the use of parts and/or accessories.
- The warranty does not cover damages or profits as indirect consequence of any defects.
- We reserve the printing rights, as well as change the specifications and technical characteristics of the products or the range without prior notice.
- In case of express delivery requested by the customer, the cost will be borne by the customer. The packages will not have any recovery value.

Delivery conditions:

XDome undertakes to deliver the products at the location indicated by the customer, provided that it is at ground level. In case this place does not comply with the conditions, and at the request of the customer, XDome will present the best solution and any additional costs will be debited to the buyer.

The buyer is specifically obliged to:

- * Count the volumes and verify that this number coincides with the number indicated on the transport guide, as well as verify that the references are correct and that there is no error.
- * Check the condition of all volumes. In the event of transportation problems, XDome must be notified in writing within 72 hours, after which no returns will be accepted for exchanging material.

Technical specifications:

The technical specifications of the products are those mentioned in the catalogue, unless there is an error in the translation of text or photographs. Whenever XDome can not send the ordered products, due to stock limitations or modifications of the technical specifications, it undertakes to inform the customer of such impossibility and may present alternative products with the same essential characteristics.

Warranty:

All equipment sold in the catalogue has a 12-month warranty.

XDome's liability in respect of warranty is limited to the repair or replacement of parts that we

·Applicable Law and Competent Jurisdiction:

The purchase and sale contracts between XDome and buyers are governed by Portuguese law. In order to resolve any type of dispute arising from the interpretation and execution of the purchase and sale agreements between XDome and the purchasers, including those relating to the guarantee of the goods or involving a plurality of interveners, it should be submit to the Courts of the "Comarca de Gondomar".
